New feature updates

Module	Feature	Description
Coaching	Multi-week holiday camps	Plan up to 12 weeks of camps in one go and provide players with the option to book on a daily or weekly basis.
Coaching	Coaching course calendar view	New calendar view on the course listings page to make it easier for players and parents to pick courses to book
Coaching	Flexible course bookings	Players and parents can now book one or multiple sessions within a series on a recurring course
Coaching	Basket improvements	We've enhanced the basket view to make it clearer which courses have been selected and what the costs are
Coaching	New coaching module layout	We've redesigned the coaching module to make it easier for you to get to your courses and introduced a new 'all sessions' section so you can view all upcoming, completed and cancelled sessions in one place
Coaching	Add new coaches	You can now add new coaches to your team during the course creation process
Coaching	Course waiting lists	You can now create a waiting list on all courses created on ClubSpark. Waiting lists can be set to manual or automatic and you can easily move players up and down on a list as required
Coaching	Booking on a full course	Players can now add themselves to a waiting list for all course types and invitations are triggered automatically when a space becomes available
Coaching	Offline payments	Optional offline payment option for coaching courses
Coaching	Registration window	Optional registration window for coaching courses to set time frame when customers can book
Coaching	Individual lessons	New lessons feature in the coaching module allows coaches and admins to create and log their individual lessons

Coaching	Import players	When duplicating a course coaches can import players from the previous course to save time
Coaching	Age range	All custom coaching categories now have min and max age fields
Coaching	Multi-day recurrence	Coaching courses can now recur on multiple days within the week
Coaching	Recurring session improvements	Updated to use the end date you set and calculates the number of sessions for you
Coaching	T&Cs per coaching category	T&Cs can be added to each coaching category and at course level
Coaching / Court booking	Coaching and court booking integration	Book courts when creating and editing your sessions, lessons, courses, and camps
Coaching / Court booking	Booking coaching on the booking sheet	Players can now book onto coaching programs from the court booking sheet
Court booking	Booking sheet improvements	We've redesigned the booking sheet as well as booking summary and confirmation pages, with easier navigation between reservations and more information for administrators
Court booking	Member & guest fees	Admins are now able to set member and guest fees for courts, on top of court and lighting costs when setting court booking rules in the admin area
Court booking	Group bookings	Logged in members can now add participants, set them as either guests or members, and pay for the calculated court fees
Court booking	Admin group bookings	Admins are now able to book on behalf of members or guests, add the additional participants, and record or pay the calculated fees based on the rules set for that member or guest
Court booking	Book multiple players	Admins can now add multiple participants to bookings via the advanced booking page
Court booking	Re-order courts	Users can now drag and drop courts to change order they appear on court sheet
Court booking	Minimum booking slot	Admins can set a minimum number of booking slots per booking, adding more flexibility to the booking rules
Court booking	Bulk cancel bookings	Admins can cancel and optionally refund bookings in bulk
Membership	New membership checkout	The new membership checkout flow provides clearer message on cost and

		member details, as well as supporting product add-ons and subscription payments
Membership	Pay via recurring and instalment payments	More flexible payments options are available via an ongoing subscription or a set number of instalments
Membership	Configure recurring and instalment payments	Admins can set the cost of an instalment, the number of instalments (or set to continuous) and the monthly payment date
Membership	New allocation pages	The new allocation pages are cleaner and easier to navigate
Membership	Refunds	Refund both online and offline payments directly from the allocation in the admin area
Membership	Import all members	Members across all packages can now be imported from one template in one go
Membership	Offline payment member status	Admins can now configure whether a membership is active upon paying via an offline method or if the admin sets this manually upon receiving payment
Membership	Payment method in exports	The amount paid for a membership by payment method has been added to the CSV and PDF exports
Add-ons	Add-ons module	The brand-new add-ons module is where product add-ons can be created and set up to purchase with membership package
Add-ons	Add-on orders	Track and manage product orders from the orders pages within the Add-ons module
Add-ons	Add-on refunds	Cancel and refund all or individual add-ons order items
Contacts	Contact notes	Add and export notes from the contact profile
All	Rich text editor for email	Add formatting, URL links and images across all email modals
Events	Event name	Edit the name of an event
Events	Event payment	Enable payment for events and set a cost per activity
Website	Important info banner	An important info banner can optionally be added to the website homepage
Website	WCAG AA Contrast Checker	To make sure the selected primary colour works hand in hand, providing great readability, legibility, and contrast
